Plant and Soil **148**: 301–304, 1993.

Contents of Volume 148 1993

PLANT AND SOIL

Vol. 148, No. 1 January (I)

Publisher's notice v

Editorial vii
H. Lambers, A. Houwers

Research articles

Growth response of marigold (*Tagetes erecta* L.) to inoculation with *Glomus mosseae*, *Trichoderma aureoviride* and *Pythium ultimum* in a peat-perlite mixture 1
C. Calvet, J. Pera, J. M. Barea

Changes on the development of *Acaulospora scrobiculata* in *Trifolium pratense* (red clover) roots and bulk substrate after plant burning 7
A. Vilariño, J. Arines

Effect of seed size and plant growth on nodulation and nodule development in lima bean (*Phaseolus lunatus* L.) 11
R. C. Dobert, D. G. Blevins

Effects of short-term salinity on leaf gas exchange of the fig (*Ficus carica* L.) 21
S. D. Golombek, P. Lüdders

A comparison of minirhizotron, core and monolith methods for quantifying barley (*Hordeum vulgare* L.) and fababean (*Vicia faba* L.) root distribution 29
D. A. Heeraman, N. G. Juma

The volatilization of ammonia from cattle urine applied to soils as influenced by soil properties 43
D. C. Whitehead, N. Raistrick

Acetylene reduction in conifer logs during early stages of decomposition 53
R. P. Griffiths, M. E. Harmon, B. A. Caldwell, S. E. Carpenter

Nitrogen cycling in leucaena (*Leucaena leucocephala*) alley cropping in semi-arid tropics. I. Mineralization of nitrogen from leucaena residues 63
Z. H. Xu, P. G. Saffigna, R. J. K. Myers, A. L. Chapman

Nitrogen cycling in leucaena (*Leucaena leucocephala*) alley cropping in semi-arid tropics. II. Response of maize growth to addition of nitrogen fertilizer and plant residues 73
Z. H. Xu, R. J. K. Myers, P. G. Saffigna, A. L. Chapman

Gypsum amendment to soil can reduce selenium uptake by alfalfa grown in the presence of coal fly ash 83
M. A. Arthur, G. Rubin, P. B. Woodbury, L. H. Weinstein

Nitrogen uptake and recovery from urea and green manure in lowland rice measured by ^{15}N and non-isotope techniques 91
K. H. Diekmann, S. K. De Datta, J. C. G. Ottow

Potato water content impact on soil moisture measurement by neutron meter 101
N. Foroud, D. R. Lynch, T. Entz

Interaction between calcium and silicon in water-cultured rice plants 107
J. F. Ma, E. Takahashi

City refuse compost as a phosphorus source to overcome the P-fixation capacity of sesquioxide-rich soils 115
E. I. Jimenez, V. P. Garcia, M. Espino, J. M. H. Moreno

Effect of soil applied L-methionine on growth, nodulation and chemical composition of *Albizia lebbeck* L. 129
M. Arshad, A. Hussain, M. Javed, W. T. Frankenberger Jr.

Distribution and decline of endangered herbaceous heathland species in relation to the chemical composition of the soil 137
A. L. F. M. Houdijk, P. J. M. Verbeek, H. F. G. van Dijk, J. G. M. Roelofs

Experimental evidence of a deleterious soil microflora associated with Norway spruce decline in France and Germany 145
O. Devêvre, J. Garbaye, R. Perrin

PLANT AND SOIL

Vol. 148, No. 2 January (II) 1993

Research articles

Rate of differentiation and emergence of nodal maize roots 155
S. Pellerin

Availability and uptake of inorganic nitrogen in a mixed old-growth coniferous forest 163
D. P. Turner, P. Sollins, M. Leuking, N. Rudd

Phosphorus fractions in soil solution: Influence of soil acidity and fertiliser additions 175
M. D. R. Vaz, A. C. Edwards, C. A. Shand, M. S. Cresser

Soil chemical properties excluding field-layer species from beech forest mor 185
U. Falkengren-Grerup, G. Tyler

Nitrogen transformation in soil treated with ^{15}N labelled dried or composted ryegrass 193
P. Z. L. Crippa, P. L. Genevini

Selection for increased nodule number in common bean (*Phaseolus vulgaris* L.) 203
P. A. A. Pereira, B. D. Miranda, J. R. Attewell, K. A. Kmiecik, F. A. Bliss

Length densities, occupancies and weights of apple root systems 211
K. A. Hughes, P. W. Gandar

Leaf area and crop growth in relation to phenology of barley in Mediterranean environments 223
E. J. van Oosterom, E. Acevedo

Response of *Cynodon dactylon* to prolonged water deficits under saline conditions 239
D. A. Devitt, D. C. Bowman, P. J. Schulte

Soil boron and selenium removal by three plant species 253
G. S. Bañuelos, G. E. Cardon, C. J. Phene, L. Wu, S. Akohoue, S. Zambrzuski

Nodule distribution on the roots of soybean and a supernodulating mutant in sand-vermiculite 265
G. Caetano-Anollés, P. M. Gresshoff

Effects of drought and root injury on plant-generated CS_2 emissions in soil 271
P. G. Hartel, R. E. Reeder

Microbial effects in maintaining organic and inorganic solution phosphorus concentrations in a grassland topsoil 277
B. Seeling, R. J. Zasoski

Presence of sporangia of *Frankia* in the rhizosphere of *Discaria* (Rhamnaceae) 285
M. S. Cusato, R. D. Tortosa

Short communication

Establishment of willow cuttings grown in porous membrane root envelopes 289
A. P. Drew

Instructions to authors 295

Announcement 299

Erratum 300
H. Mahdi, A.J.M. Smucker and H. Persson, A comparison between minirhizotron and monolith sampling methods for measuring root growth of maize (*Zea mays* L.). *Plant and Soil*, Volume 147, Number 1 (1992), pages 127-134.
